COURSE AIMS AND OBJECTIVES:

This course is aimed at creating better speakers of English who are also equally adept at comprehending the language in all its nuances. It has been tailored for students whose native tongue is not English, but who at the same time have had a little exposure to the language.

It is understood that the social and cultural contexts are very important in shaping a student's familiarity with and grasp of a particular language. As such, the course will approach teaching and instructing in English from within an Indian context, and more specifically, the northeastern Indian context.

For the average student, it is first and foremost important to comprehend the language. We aim to provide as much guidance and opportunities to this end. The aim is to make them better speakers and communicators in a language that the world cannot do without in this day and age.

In the final analysis, we aim to give the students a well-rounded exposure to all the skills that they might need once they leave the college campus and venture out into the world – whether job-hunting, freelancing or simply giving vent to their creative urges in numerous ways.
