Action Taken report on Green and clean campus Initiative by Katahguri College

1. Energy conservation:

Katahguri College has developed a plan to save energy at the institution towards conservation. Our energy conservation practices include the college replacing all the tube light with LED tubes, LED bulbs being most energy efficient lighting option. LED tubes consumes 75% less than traditional light source. It is ecologically Friendly tube. Katahguri College 100% of lighting requirement is met through LED. It is Zero UV emission. Katahguri College organized awareness among all the employees and students about how to reduce electricity consumption like students and staff turning off all lights, appliances and electronic items when not in use.

Save energy tips to be followed by Katahguri Collge:

- Activate power management features on computer monitor.
- Turn off the monitor when the students and staff leave the table.
- Whenever possible shutdown rather than logging off.
- Turn off unnecessary lights and use day light instead.
- Use the fans only when they are needed.
- Avoid the use of decoration lighting.
- Keep lights off in conference halls, classroom, and seminar halls when they are not in use.

2. Water management :

Rain water conservation is implemented on different levels in Katahguri College. Storage of roof water is a way of collecting rain water. Whenever it rains, rainwater can be stored in man-made pond and tank. Water harvesting is very useful to meet various needs like watering in garden, reducing the electricity bill spent in supplying water at any time whenever it is required.

3. Waste Management:

Various types of degradable and Non-degradable dustbins have been implemented in front of College as Students can use it. For degradable waste a brick made hole has been made to put this degradable waste a permanent Iron dustbin has been made for non-degradable waste. The institute reduce use of paper by supporting digitization of internal assessment records. The college organized workshops for students to make awareness about social and plastic waste management on 10-03-2023. The Katahguri College signed MoU on 26-06-2023 with Jawaz Alam. AT Road Haiborgaon, Nagaon, Assam which Collect the solid waste and dispose of the same as per regulations.

4. Green Landscaping :

Katahguri College has taken initiatives and facilities for green and clean campus in different ways by plantation and clean drive through the different occasions like world environment Day, Azadi ka Amrut Mahatsov, Chief Ministers Institutional plantation program (CMIPP), plants garden plants happiness by our college and so on. Faculty members and NSS Unit of Katahguri College took Participation in these program. Cleanliness drive is initiated at various public places and inside the college area by NSS Unit of Katahguri College.

A large plantation drive was Carried out by NSS Unit and Students of Katahguri College at various places i.e Mini PHC Compound at Darul Ulum Madrassa, Veterinary Hospital compound, Co-Operative office and at Fuljan Bibi MEM School etc. Besides plantation drive is done in the Environment Day and at various occasions.

Subject: Submission of Energy Audit Report.

Dear Sir,

In order to prepare an Energy Audit Report after visited Katahguri College campus on 29th of June, 2024 to collect data and instantaneous measurement. After collecting the required data and analyzing those data, Energy Audit Report has been prepared which includes our finding and necessary recommendation to explore energy conservation opportunities.

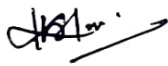

The Report has been attached along with this letter for your consideration. We hope that this activity reduce the overall energy consumption of the College campus and improve the energy efficiency.

Thanking You

**ENERGY AUDIT REPORT
KATAHGURI COLLEGE, TUKTUKI, NAGAON, ASSAM**

We are grateful to be a part of the preparation of Energy Audit Report of Katahguri College, Tuktuki, and Nagaon, Assam for the year 2023-24. We have visited Katahguri College, Tuktuki on 27th June 2024 to collect & take some instantaneous measurements. We have studied the present energy consumption pattern, assessed the actual operating load,

The summary of the Report is as follows –

1. The existing Single phase system load is 4KW converted to 3phase system accordingly as per required load. The present load is 18KW.
2. The College have deposit the load security to APDCL 27th June 2024.
3. There is 2Nos of DG Set 30KVA & 750VA

We, hope that this activity will improve the energy efficiency and reduce the overall energy bill consumption of the College campus. The college Authority always should check the energy consumption on every month and reduce misuse power to avoid high consumption monthly as the APDCL energy tariff rate is change in every year.
